

Product Overview

AQFS220 Salt Free Water Softener

The Aquios AQFS220 Salt Free Water Softener and Filter System is a revolutionary approach to treating hard water. By combining a natural, food grade additive with powerful carbon block filtration, the Aquios system will effectively prevent limescale in your pipes, fixtures and appliances while eliminating chlorine odor and taste. In addition, the healthy minerals your body needs are not removed or replaced with salt.

Now you can have clean, great tasting water without the salt, without the cost, and without the hassle.

Technical Specifications

- Dimensions: 23.4"x5.4"
- Port Size: 3/4" threaded brass
- Operating Pressure: 100 psi
- Operating Temp: 40°-115°F
- Flow Rate: 12 GPM
- Filter Rating: 5 micron
- Filter Medium: Carbon block
- Filter Life: 4-6 months¹
- Max water hardness: 22 GPG²

Replacement Cartridges

- RCFS220
- RCFS220L

1. Filter life can vary and will be affected by existing water conditions
2. The Aquios system will effectively treat water with a hardness up to 22 gpg or 380 ppm
3. Restrictions and exception apply.

Salt Free Conditioning

The Aquios system doesn't use salt to address hard water issues. We use a natural, FDA approved, food grade additive known as Siliphos that will effectively prevent calcium and magnesium from forming damaging scale on your pipes, fixtures and appliances. It does this by preventing these minerals from attaching to each other or to other surfaces, keeping them in a suspended state.

Sediment Control

Dirt, silt and other sediment is effectively removed from your water leaving it clean. The 5 micron filter rating keeps sediment in the cartridge and not in your glass.

Easy Installation

Installation is brilliantly simple. Just connect the unit to the main water line where it enters the home, mount to the wall and you're done. An average install takes a plumber around an hour and a DIY install usually takes about two hours.

Chlorine Reduction

Say goodbye to refrigerator filters. With powerful 5 micron carbon block filtration, you no longer have to worry about chlorine odor and taste in your drinking water. The AQFS220 provides great tasting water anywhere in your home without the need for additional water filtration.

Eco-Friendly

No salt means no regeneration, no brine backflush and no wasted water. The AQFS220 uses no electricity and is safe for you, your family, pets and plants.

20 Year Warranty

All Aquios systems come with an industry leading 20 year warranty on the housing and head assembly. If any of our systems ever fail, we will replace or repair it. It's that simple.³
